About Hypnotherapy Sessions

Initial 15 minute phone consultation is free. First session is usually 80 to 90 minutes. Regular session hours are 55 minutes long.

Most clients achieve excellent results, while it is possible to get limited or no results at all. Your results may be dependent on many factors including: motivation, attendance of sessions, mental focus, following program guidelines and applying the techniques you are taught. Your personal effort is essential to achieving great results with the **InstaCalm® Programs**.

Although human behavior cannot be guaranteed, you will be given the following Written Satisfaction Guarantee:

If, for any reason you are not 100% satisfied with your first individualized InstaCalm® session, you may receive, upon request, a full refund of any monies paid, before you leave the building. There are no other refunds.

Once you have completed the individualized program that was recommended during your initial consultation, you will be provided additional sessions, at-no-cost, until you achieve your desired results. Should you then ever require reinforcement, you may receive reinforcement (limited to one session per month), FREE of Charge, for as long as our doors are open.

All sessions and discussions between you, the client, and Charles Beeson, CHt, are confidential.

The hypnotherapy provided by Charles Beeson, CHt, does NOT provide counseling, psychotherapy or medical advice. Services are intended to be only motivational and educational for self-improvement and habit modification purposes, using deep relaxation and guided imagery.

Cancellation Notice: A 24 hour notice of appointment change or cancellation is required or the full fee will be charged.
